

// PROCESS EXPERTS FOR ADVANCED FOOD TECHNOLOGIES.

// HF FOODTECH GROUP IS A STRONG UNIT OF PROCESS EXPERTS FOR THE FOOD INDUSTRY.

HF FoodTech Group is founded 2021, the group unites three well experienced companies under one roof. All of them are strong in their business and with its reunion offer great synergies for the markets.

HF Press+LipidTech is an expert for oilseed processing, refining technology and rendering equipment. This brand is leading in its field for decades. The screw press is a core component which is successfully operating worldwide.

Schwarte Processing is one of the market and technology leaders in Europe as regards tank and apparatus building for the storage and processing of liquid foods and other sensitive substances. The product portfolio includes high-quality steel storage and process tanks of various sizes right up to large silos.

Hänsel Processing offers systems and processes for the confectionery industry. For over 100 years, Hänsel Processing has been developing, producing and installing sophisticated lines and machines for the individual manufacturing of confectioneries of the highest quality. As the leading full-service provider Hänsel accompanies its customers in the confectionery industry from the idea to the finished taste experience, and from product development to plant construction and commissioning.
